

anti -

antibodies

antibiotics

anti-perspirant

opposite, against

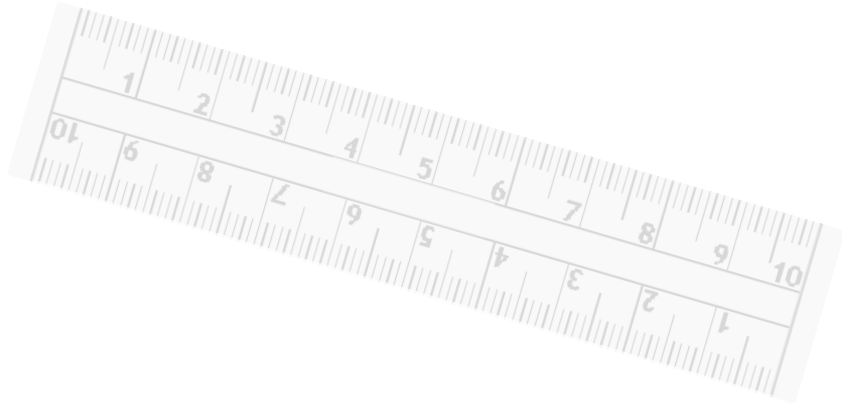

bio -

biology
biological
biofuel

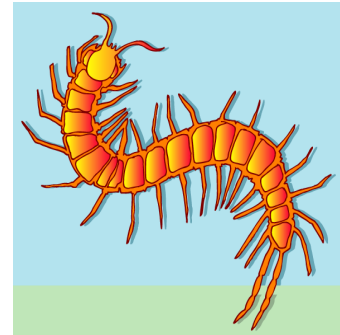

life

cent - centimetre
centipede
century

one hundred (th)

chloro

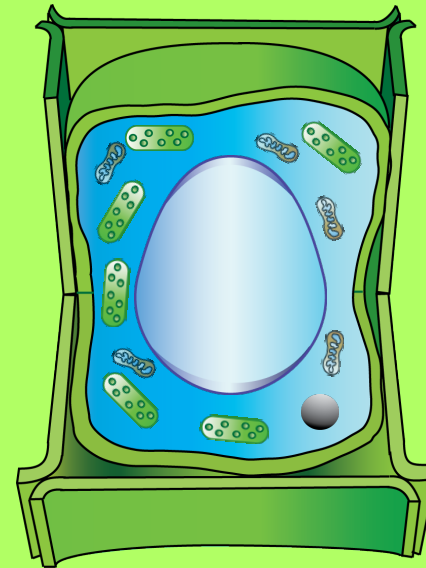

-

chlorine

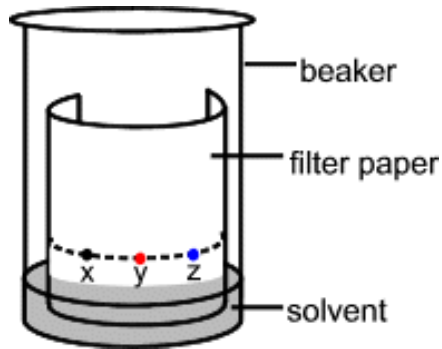

chloroplast

chlorophyll

green

chroma -

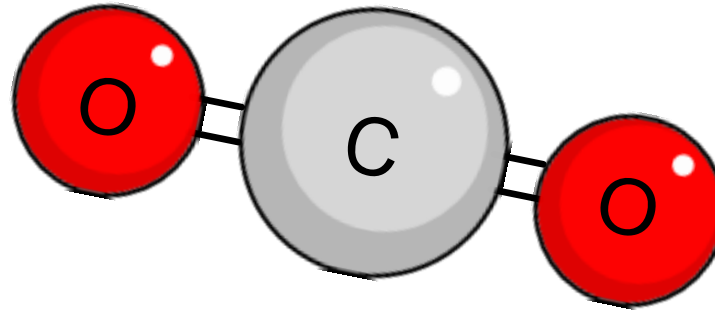

chromatogram
chromatography

colour

di -

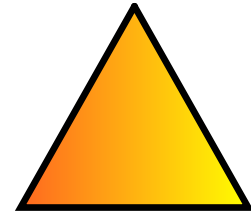

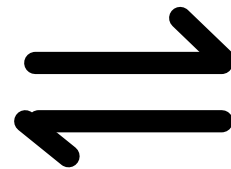

carbon dioxide
sulfur dioxide

two

equi- equilibrium
 equivalent
 equilateral triangle

equal

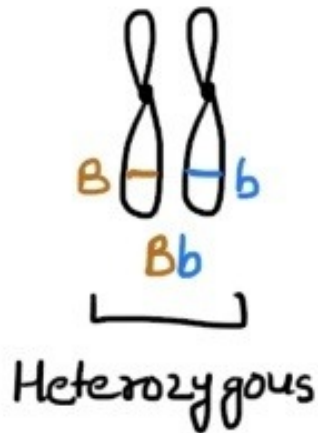

hetero-

heterozygous chromosomes

heterosexual

heterotroph

different

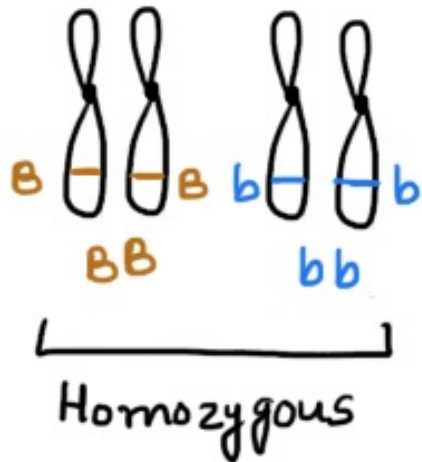

homo-

homozygous chromosomes

homologous

homosexual

same

hydro-

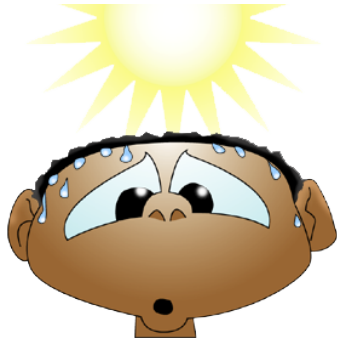

(de)hydrated

hydrology

hydroelectric power

water

hyper-

hyperactive

hyperthermia

hyperventilate

over, beyond

hypo-

hypothermia

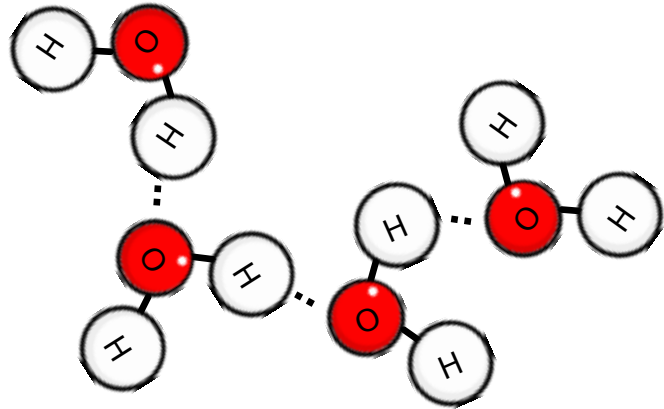

hypodermic needle

hypoglycemia

under

inter-

intermolecular forces

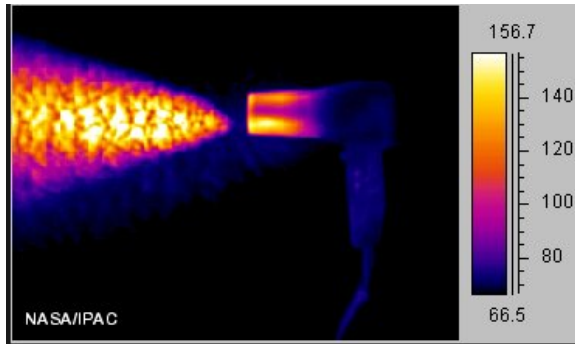

interpret

international

between

infra-

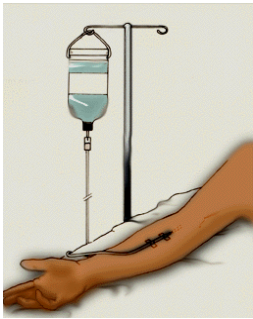

infrared
infrastructure

below, beneath

intra-

intramolecular forces

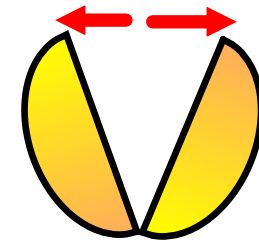

intravenous

intracellular

within, inside

analysis
hydrolysis
photolysis
haemolysis

-lysis

to split

micro-

microscope

microbe

micro-organism

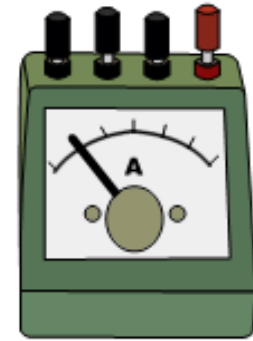

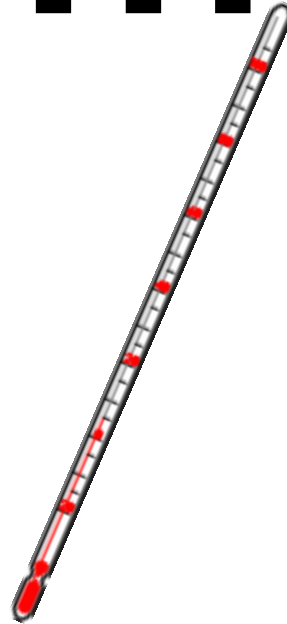

small

-meter

thermometer

speedometer

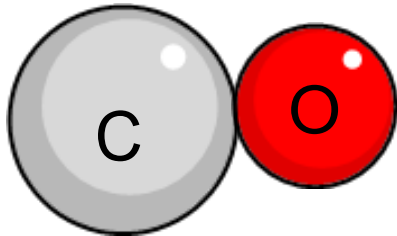

ammeter

measurement

mono-

carbon monoxide

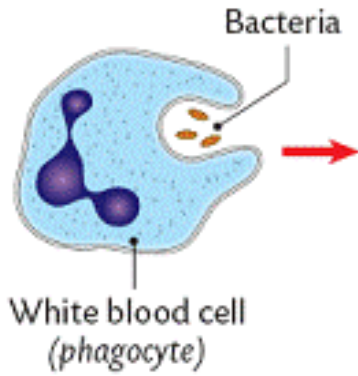

monorail

monotheism

single

phag-

phagocyte
phagocytosis
oesophagus

eat

photo-

photosynthesis

photograph

phototropism

light

tripod
podium
podiatrist
arthropod

-pod

foot

passport
transport
import
support

-port

carry

re-

again

repeat

revise

remember

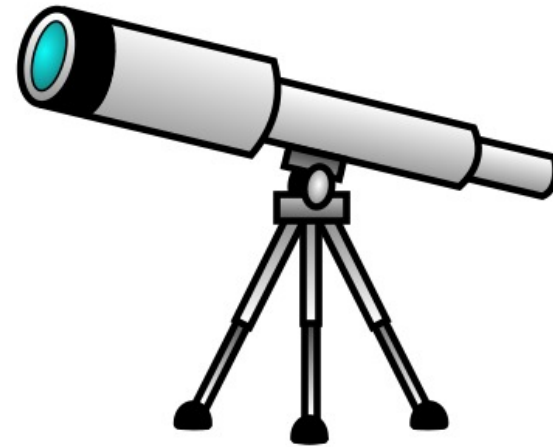

rearrange

-scop-

telescope

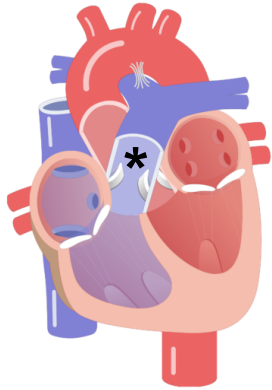

microscope

oscilloscope

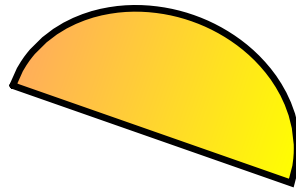

look, device for seeing

semi-

semi-circle
semilunar valve

semi-final

half

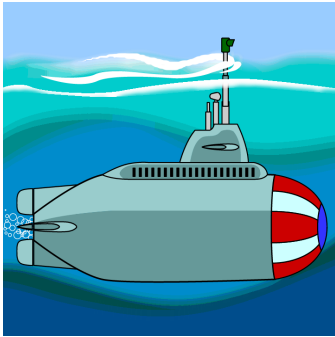

dissolve
solvent
solve

-solv-

loosen, free

sub-

submarine

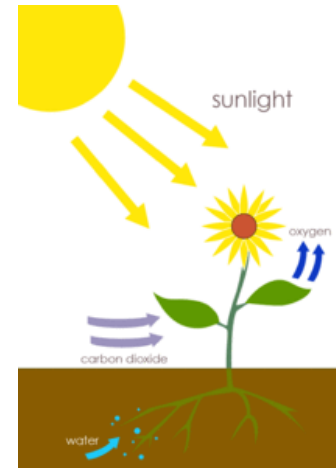

subduction

substandard

under, up to

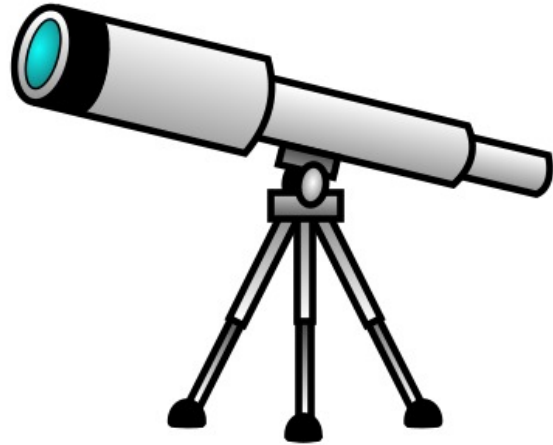

-synthesis

photosynthesis
protein synthesis

to make

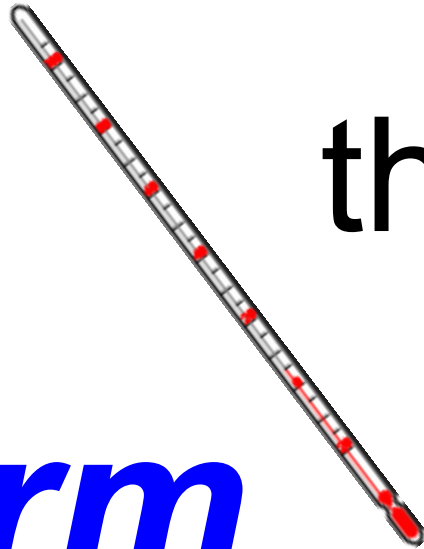

tele-
